
Indian Holographer wins IHMA prestigious hologram award

Toronto, Canada, November 20, 2008; Technical excellence and innovative applications were the overarching themes of this year's International Hologram Manufacturers Association's (IHMA) Excellence in Holography Awards, which were presented at the conference dinner of the annual holography conference Holopack·Holo-print® in Toronto on Wednesday November 19.

The Brian Monaghan Award for Business Achievement was made to Umendra Kumar (Ukay) Gupta, the founder and CEO of Holostik India, the country's first, largest and most diverse hologram producer. He is also one of the founders of the Hologram Manufacturers' Association of India (HoMAI), serving as its first and current President. According to the IHMA, the Indian hologram industry owes much to his vision and energy and probably wouldn't exist in its current vigorous form without his contribution.

The 'Best New Holographic Product Award' went to Liechtenstein's U-NICA Global Security Solutions for its intraGRAM™ injection mould-embedded hologram.
